

# Forevermore

**By Elva Jones-Hahn & David Lohr**

V1

I wasn't looking  
But I felt the change  
This simply snuck up on me  
Trying to rearrange my dreams  
I was just hoping  
For half the chance  
To show you love's not in vain  
The waiting is so insane

Chorus 1

Here's what I'm hoping for  
To land on the sea of your shore  
A love that will be  
Happy & Free  
Forevermore

V2

I want to know you  
Feel your breath  
Feel your touch on my skin  
And the shiver from within  
I want to hold you  
When you're scared  
Feel the fears deep inside  
Make them disappear from our lives

Chorus 2

Here's to our second dance  
Two hearts that will take a chance  
Souls that are one  
Rise to the sun  
Forevermore
