

Hit The Ground

By Elva Jones-Hahn

V1

Shut up and get in the car
I'm thinkin' of you
I'm thinkin' real hard
I'm hoping' that maybe you'd come around
See things the way they really are

Chorus

Unwilling to yield
Running through red lights
Speed on the wheels
Stopping for headlights
Before she runs you down
Hit the ground
Hit the ground

V2

Got a motorized will and unchanging heart
To good to be true
Too late to start
I'm holding' on as long as I can
I'll see you sometime when you're near the end

Chorus

V3

Gas her up
I'm taking her for a spin
Get over yourself
Your pride might win
I'm looking for ways to get out of here
Hop on in we're gonna disappear

Chorus
