

Over Good-Bye

© **By Elva Jones-Hahn**

Not good enough
That's how it felt
You walked away
With no one's help
All that we were
Circles in time
Shifted paradigms

I will stand tall
I will climb high
And the clouds will clear
The sun will shine
You might see me babe
In another lifetime
When I'm brave enough
When I'm strong & tough
When I'm over good bye
Over good bye

We loved hard
That's what we say
Hearts take their toll
Then wash away
You tried to stay
I just held on
Say what you say
And just be gone

I will stand tall
I will climb high
And the clouds will clear
The sun will shine
You might see me babe
In another lifetime
When I'm brave enough
When I'm strong & tough
When I'm over good bye
Over good bye

Not good enough
That's how it felt
You walked away and I wish you well
